

DIARY
Executive Officer, DD/I

Friday, 30 January 1953

FOIAb6

1. [REDACTED] brought me a copy of his draft memo on the procedure for handling G-2's candidates for 15 days' active duty training with the Agency. This paper followed the agreements reached at the meeting in General Morris' office and I approved the draft for DD/I.

2. Attended the Professional Selection Panel meeting.

3. Informed [REDACTED] did not bring a gun when he moved up to this office.

4. Under the Agency Personnel Evaluation Program each person evaluated must be reviewed by the next higher official in line; thus it would behoove the DD/I to review the ratings of Office Division Chiefs if they are rated by the Assistant Director. [REDACTED] of ORR called to say that she is getting in a number of such ratings and I requested that she wait until all are received and send them up as a package.

5. [REDACTED] of OSI called regarding a staff study dealing with the pouching of items abroad. I explained to him that this is under study by [REDACTED] who had sent the staff study to ORR for their opinion. [REDACTED] said that he felt this action was unnecessary in that ORR had participated in its draft.

6. The OCD Diary of 29 January states that [REDACTED] had conferred with [REDACTED] of ORR regarding photographs and freight [REDACTED] discernable in them which might be useful for [REDACTED]. I told [REDACTED] that it was my understanding that CIC in Germany maintained voluminous records on [REDACTED] which might also be useful in the project that [REDACTED] is following.
